

Without You

Mila J

Excuse this is my real life (ooh watch out)
I don't think you heard me
So I changed too early
It's my motherfucking life
So if it's alright (alright) with you
I'll be on my way
I got better shit to do (ooh)

I could stare at the wall
I could watch a flower grow tall
Still that's better than fuckin' with you
I bet you think I don't know what to do

Without you (right)
Like you could freeze time
Like I ain't no baddie
Like I still don't got a type
Like they ain't gone try me when they see me walking by
I think I could get used to when you're not by my side

I think I like it (I think, I think)
I think I love it (I think I love it)
I think it's true
Life's way better

A little this, a little that (ooh watch out)
Some reasons I don't want you back (like that?)
My nigga yes it's just like that (like that)
Now could you
Get up out my way
I got better shit to do (ooh)

I could stare at the wall
I could watch a flower grow tall
Yeah that's better than fucking with you
I bet you think I don't know what to do

Without you (right)
Like you could freeze time
Like I ain't no baddie
Like I still don't got a type
Like they ain't gone try me when they see me walking by
I think I could get used to when you're not by my side

I think I like it (like it, like it)
I think I love it (I think I love it)
I think it's true
Life's way better, without you
