

Still A Fire

MILCK

This year's been hard, yeah, I've been through it
I almost gave into the hurt
I'm not gonna be the one to do it
Won't throw the towel in the dirt

Cuz if I did then I'd be certain
I'd never see myself the same
To feel the sunshine thru the curtains
Sometimes you have to brave the rain

Oh I, oh I
I know somewhere inside

There's still a fire, still a fire
Still a fire burning deep
Rising slowly getting higher
Still a fire burns in me

No use in trying to ignore it
It's got a mind all of its own
If I don't tame it but embrace it
I'll free the burning in my bones

Oh I, oh I
I know somewhere inside

There's still a fire, still a fire
Still a fire burning deep
Rising slowly getting higher
Still a fire burns in me

Rising slowly getting higher
Still a fire burns in me

I won't tame it
I'll embrace it
The fire that burns in me
I get tired
But I ain't breaking
Cuz the fire it burns so deep, deep

Rising slowly getting higher
Still a fire burns in me
