

You can live your life in places
You can move all night in vain
You can lead your life in stages
You can win one time again

You can waste your life in passing
You can move your mind in space
You can lead your life to places
But you can't live your life again

You can dance all night to tempo
You can breathe your fire again
You can live your life in passing
But you can't live your life again

You're on fire
Can't you see?
You're on fire
Just breathe

You're on fire
Just breathe

Not gonna be another
Working man

I'm gonna be a father
Work
