

## Getting Warmer

Mild Orange

Let the shivers run through  
Feeling queasy  
My mind's in blue  
And bliss  
From just one kiss  
Tisk tisk...

Eyes wander  
Body stoned  
My mind travels  
All alone  
Flicker flicker  
In the distance  
Her eyes glisten  
And my body starts to listen

Breathe in  
Breathe out  
Words spilling out my mouth  
I thought I couldn't speak  
I though I couldn't breathe  
I knew I should've  
I said I could've  
I thought I would've  
Push it push it  
Til I crack  
Push it push it  
Til I crack

Sunny days  
Are just around the corner  
Look up  
You'll feel it warmer  
Salute today

Keep on groovin'  
With the light  
Don't let it fade  
Even rainy days are great (Yeah)

Bound by my earthly tether  
How's the weather  
What's my forecast?  
Love at long last

It comes  
It goes  
It stays  
It flows

Love arrives exactly when we need  
And love leaves exactly when it must

Sunny days  
Are just around the corner  
Look up  
You'll feel it warmer

Salute today

Keep on groovin'  
With the light  
Don't let it fade  
Even rainy days are great (Yeah)

Sunny days are just around the corner  
Sunny days are just around the corner
