

Stuck thinking about
All these dreams
And in that moment
I remembered to breathe
I looked at what's around me
A world so truly lovely
Don't forget to adore

Yeah I was looking for some feeling
And it's how I found my way
So if I keep looking for feeling
I know I'll get
To where I want to be someday

Well it's been a long long night
And I could use a break
Instead I'll keep spending this time
To improve my mind
And one day
I'm gonna make you grin

Wherever you go
May happiness come to you
Let the colour in
And decide what to paint with it
I've embraced this
I invite you to my world of bliss
A long time coming
Appreciate it don't just happen

Well it's been a long long night
And I could use a break
Instead I'll keep spending this time
To improve my mind
And one day

Well it's been a long long night
And I could use a break
Instead I'll keep spending this time
To improve my mind
And one day
I'm gonna make you grin
