

## Mood

## Mild Orange

Craggy coastlines in my head  
Pull me out of the cityscape  
This passage of time  
Skips over my mind

Bet you've known this placid state  
Nearby long grass and calm lakes  
Have you kept out the plastic waste  
Has transience found a new pace?

It's been about... oh, a minute now  
Thanks for your precious time  
And as life swells by  
Please remain calm

Do a little dance  
Add some ooh la la  
Keep it coming now  
Just don't let us touch the ground

La la la  
La la la  
La la la

Head tilted back to the sky  
Underneath a canopy of fractured sunlight  
When I'm out there I'm thinking of how I'll be desk-bound  
Seeking to capture this sound

Void of here and now  
Savings depleted, don't love this feeling  
Shake the money off my mind for a sec  
Yeah I'll look back one day  
And we'll say "those were the best days with my mates around"  
For now we're the new kids in town

La la la  
La la la  
La la la

Cool cool London  
Yeah you've been right  
For this time in my life  
And you've shown me how to go  
And shake up the grooves

Do a little dance  
Add some ooh la la  
Keep it coming now  
Just don't let us touch the ground

La la la  
La la la  
La la la  
La la la

You'll be right

We'll be right  
You'll be right  
We'll be right

La la la  
We'll be right  
La la la  
You'll be right

Do a little dance  
Add some ooh la la  
Keep it coming now  
Just don't let us touch the ground
