Mild Orange

Looking like
We'll play a new hand
Walk the line
Like a jazz dance

Oh keep me up now
Keep me up now

So much light
On a new path
The call of urban echoes
On a new star

Keep me up now
Keep each other up now

Are you ready and focussed
Or feeling rather uncertain?
Now I know
You gotta learn to love
To be loved
To be beloved

And soon enough
You'll have enough
Don't you see
You've got nothing to lose
Just lay it all out
You'll wanna stick around

Every night I think of our southern stars
Our country life was so advanced

Keep it up now
Keep me up now
Keep each other up now
Keep me up now
