

Coming of Age

Miles Kane

Now Suzie's in my messages but I've got nothing to say
Maybe I'm just coming, coming of age
And I'm running out of remedies to make me feel ok
So sign me up and send me on my way

But there's always something in the way
And there's always something left to say
Yeah there's always a little hesitation
Now that I'm coming of age

Maybe I'm coming of age
Maybe I'm coming of age
I'm coming of age
Maybe I'm coming of age
Maybe I'm coming of age

And I look to all my ornaments, but they've got nothing to say
I feel a little older, coming of age
And I sue myself for damages for the mistakes that I have made
I was only acting up, acting my age

But there's always something in the way
And there's always something left to say
Yeah there's always a little hesitation
Now that I'm coming of age

But there's always something in the way
And there's always something left to say
Yeah there's always a little hesitation
Now that I'm coming of age

Maybe I'm coming of age
Maybe I'm coming of age
I'm coming of age
