

The Competition

Miles Kane

Competition
Nervous laughter
Celebration
Happy ever after

Above suspicion (above suspicion)
Below the radar (below the radar)
A moment in here (a moment in here)

I'm counting, I'm waiting
I'm waiting 'round my brain

You want it?
You got it
And now you're getting off
And now you're getting off
You rock it
You're on it
And now you're getting off
And now you're getting off
Throw your lasso 'round my neck again

Competition
Such a show off
Luscious gloating
Give it all you got

On a mission (on a mission)
Endless chaos (endless chaos)
Above suspicion (above suspicion)

I'm tired
I'm wired
The fire in my belly

You want it?
You got it
And now you're getting off
And now you're getting off
You rock it
You're on it
And now you're getting off
And now you're getting off
Throw your lasso 'round my neck again

I played it your way
I played it and I lost
I played it your way
And now you're getting off
I played it your way
I played it and I lost
I played it your way
And now you're getting off
I played it your way
I played it and I lost
I played it your way
And now you're getting off

I played it your way
I played it and I lost
I played it your way
And now you're getting off

You want it?
You got it
And now you're getting off
And now you're getting off
You rock it
You're on it
And now you're getting off
And now you're getting off
Throw your lasso 'round my neck again
