

# Without You

Miles Kane

There's something special about you  
Something I have never known  
Miss you in the daytime  
Dream about you all-night long

You lift me up when I'm fading  
With sweet nothings whispered in my ear  
Believe me when I tell you  
My love for you is so sincere

How could I ever go on  
Without you?  
Everything would go wrong  
Without you

You're the sweetest temptation  
I've ever found myself in  
My whole situation's  
Better than it's ever been

No more messing with the darkness giving myself away  
I'm just living for the promise of a brighter day

If I don't ever do nothing  
But to get to hold you in my arms  
I'd be like a present  
Wrapped up in my baby's charms

How could I ever go on  
Without you?  
Everything would go wrong  
Without you

How could I ever go on  
Everything would go wrong  
That's why I'm calling my song  
"Without You"

Without you  
Without you  
Without you  
Without you
