

# D.R.E.A.M.

Miley Cyrus

You're in my bed uninvited  
It's fine, 'cause I'm in the mood  
Hope you don't mind if I spike it  
We'll drink it, just me and you

And you know we're gonna be alright  
We'll be sleeping on the red eye flight  
Keep up with me 'til the end of the night  
And we're just getting started

Always last to leave the party  
Drugs rule everything around me  
Wake up with new tattoos on my body  
Drugs rule everything around me

Get the Ghost, raise a toast, pop the Molly  
I can go toe-to-toe like I'm Ali  
We're all tryna fill the lonely  
Drugs rule everything around me  
Drugs rule everything around me  
Drugs rule everything around me

These planes are all UFOs and  
This city's in outer space  
It's better than where we came from  
I think that we both should stay

'Cause you know we're gonna be alright  
We'll be fucking on the red eye flight  
Keep up with me 'til the end of the night  
And we're just getting started

Always last to leave the party  
Drugs rule everything around me  
Wake up with new tattoos on my body  
Drugs rule everything around me

Get the Ghost, raise a toast, pop the Molly  
All the girls in my room look like Dolly  
We're all tryna fill the lonely  
Drugs rule everything around me  
(Drugs rule everything around me)  
Drugs rule everything around me  
Drugs rule everything around me  
Drugs rule everything around me  
Drugs rule everything around me

Drugs rule everything around me  
You can call me a king  
I got it all in my store  
You should crown me  
Purple, Percs, sticky green, Molly  
Sippy lean  
Got the white that's sure to light the floor like in Billie Jean  
Scarface nights (nights)  
Five hundred thousand on the pinky  
Broadway ice

Ice, we throw diamonds at weddings  
And y'all throw rice (rice)  
Lollapalooza, Coachella custies, that's my type  
Party all night
