

# Easy Lover

Miley Cyrus

(Oh-woah)

You're my baby, you're the only one  
You drive me crazy, oh, but I still miss you when you're gone  
Every second and every hour

(Oh-woah)

It's in your nature, to light me up  
I love to hate ya, uh, but I can't stand it when you're gone  
So I call you once every hour

You got the love I always needed  
Tie me to horses and I still wouldn't leave ya  
But you're not an easy lover

You're a wildfire (Oh-woah), and I'm in your path  
I've decided I wanna keep on dancing in the ashes  
And so I call out, "Let it burn" (Oh-woah)

You got the love I always needed  
Tie me to horses and I still wouldn't leave ya  
But you're not an easy lover (Lover, oh-woah)

No, I just can't give you up, no, I just can't give you up (Oh-woah)

No, I just can't give you up, no, I just can't give you up  
But you're not an easy lover (You're not an easy, you're not an easy)

Easy lover, hey (Oh-woah)

You got the love I always needed (Ah)  
Tie me to horses, I still wouldn't leave you (Tell 'em, B)  
But you're not an easy lover (You're not an easy, you're not an easy)  
(Lover)

You make it hard to touch another (You make it hard)  
Anything goes when we're under cover (Covers)  
But you're not an easy lover (You're not an easy, you're not an easy)  
(Easy lover, oh-woah)

No, I just can't give you up, no, I just can't give you up (Can't give you up, oh-woah)

No, I just can't give you up, no, I just can't give you up  
But you're not an easy lover (You're not an easy, you're not an easy)

No, I just can't give you up, no, I just can't give you up (Oh-woah)

No, I just can't give you up, no, I just can't give you up

But you're not an easy lover (You're not an easy, you're not an  
easy)  
(Oh-woah)
