

# Gimme What I Want

Miley Cyrus

Midnight and the moon is out  
Careful, you might hurt yourself  
Pleasure leads to pain  
To me, they're both the same  
Sweat drippin' down to the floor  
Bite marks like an animal  
You might be insane, but maybe we're the same

Tonight, you came here 'cause you know what I need  
And no one likes to be alone

I don't need a future, I don't need your past  
I just need a lover  
So gimme me what I want, or I'll give it to myself  
So if you think it's torture, you don't have to ask  
I just need a lover  
So gimme me what I want, or I'll give it to myself

I can tell that you're new to this  
Slow it down but you can't resist  
Feed your fantasy, give yourself to me

Tonight, you came here 'cause you know what I need  
And no one likes to be alone

I don't need a future, I don't need your past  
I just need a lover  
So gimme me what I want, or I'll give it to myself  
So if you think it's torture, you don't have to ask  
I just need a lover  
So gimme me what I want, or I'll give it to myself

Give it to me, babe (Give it to me, babe)  
Give it to me, babe (Give it to me, babe)  
Give it to me and nobody else, babe  
Give it to me, babe (Give it to me, babe)  
Give it to me, babe (Give it to me, babe)  
Give it to me and nobody else, babe

Gimme me what I want (Want, want, want)
