

# Pumpin' Up the Party

Miley Cyrus

Hey get up, get loud  
Start pumpin' up the party now  
Hey get up, get loud  
Start pumpin' up the party now

It's the same old, same grind  
But we don't feel we're wasting time  
Not so bored that we can't find a better way  
My friends, my kind, no one's gettin' left behind  
If they did it'd be a crime, that's why we say

Let the music start a revolution (revolution)  
No time to play it safe

Hey get up, get loud  
Start pumpin' up the party now  
Hey get up, get loud  
Start pumpin' up the party now

They can't, we can, parents might not understand  
Havin' fun without a plan well that's what we do  
We're all here, let's go, gotta make this party grow  
Together we can make it blow right through the roof

The music's gonna start a revolution (revolution)  
Too late to play it safe

Hey get up, get loud  
Start pumpin' up the party now  
Hey get up, get loud  
Start pumpin' up the party now

We don't have to paint by numbers  
Let our voice come out from under  
Hear it rise feel the thunder  
It's time to lose control

Hey get up, get loud  
Start pumpin' up the party now  
Hey get up, get loud  
Start pumpin' up the party now  
Pumpin' up the party now  
Party now, party now

Hey get up, get loud  
Start pumpin' up the party now  
Hey get up, get loud  
Start pumpin' up the party now (2x)
