

# Space Bootz

Miley Cyrus

Sitting here with nothing to say  
Looking out the window  
It just rained, but the sun's up for the day  
And there's probably a rainbow  
But I don't care 'cause all the colors left with you  
Thinking about driving around in your car  
I never thought that we would take it very far  
I just love talking, and then parking, then we'd go walking  
I loved you so much  
I just started watching TV  
I get so high 'cause you're not here smoking my weed  
And I get so bored 'cause you're not here to make me laugh  
You're so cute in your space suit  
In your space boots  
Space dude  
Since you've left, I've started to drink  
Sometimes now, when I do drugs I'll start to overthink, and I start crying  
I think I'm dying  
But I'm just tripping  
Start spiraling down this hole

Oh, space dude in your space boots  
I got to be high to deal with your moods  
But maybe it's me, I got to change my view  
Oh, space dude in your space suit  
Our love, it takes us to the moon

But you leave me up there, I'm so marooned  
Oh, space dude in your space boots and your space suit  
Space dude  
Space dude in your space boots and your space suit  
Space dude

Every time we talk I feel like shit  
I guess I was just tryin' to avoid letting myself feel like this  
'Cause it makes me feel like I might die  
But every second I'm doing that anyway  
My biggest fear is not being with you  
The pain is so excruciating I don't know what I'd do  
We're both vegan  
It makes it easy to think you'd never hurt anything  
Living intentionally

Oh, space dude in your space boots  
I got to be high to deal with your moods  
But maybe it's me, I got to change my view  
Oh, space dude in your space suit  
Our love, it takes us to the moon  
But you leave me up there, I'm so marooned  
Oh, space dude in your space boots and your space suit  
Space dude  
Space dude in your space boots and your space suit
