

# Wake Up America

Miley Cyrus

Oh, oh  
Can you take care of her  
Oh, oh  
Maybe you can spare her  
Several moments  
Of your consideration  
Leading up  
To the final destination  
Oh, oh  
The Earth is calling out  
I wanna learn  
What it's all about

But everything I read  
Is global warming  
Going green  
I don't know  
What all this means  
But it seems  
To be saying

Wake up America  
We're all  
In this together  
It's our home  
So let's take care of it  
You know that you want to  
You know that you got  
To wake up America

Tomorrow  
Becomes a new day  
And everything you do  
Matters  
Yeah  
Everything you do  
Matters  
In some way

Stand up  
I'll try if you will  
Wake up  
It's not a fire drill

All she needs  
Is a little attention  
Can you give her  
Just a little attention?

Uh, oh  
It's easy to look away  
But it's getting harder  
Day by day

Everything I read  
Is global warming  
Going green

I don't know  
What all this means  
But it seems  
To be saying

Wake up America  
We're all  
In this together  
It's our home  
So let's take care of it  
You know that you want to  
You know that you got  
To wake up America

Tomorrow  
Becomes a new day  
And everything you do  
Matters  
Yeah  
Everything you do  
Matters in some way

I know that you  
Don't want to hear it  
Especially coming  
From someone so young

But in the back seat  
Yeah  
They want to hear it  
(They want to hear it)

So come on  
(Turn it up)  
Come on  
(Turn it up)  
So come oooooooooon  
(Turn it up)  
Wake up America  
We're all  
In this together  
It's our home  
So let's take care of it  
You know that you want to  
You know that you got to  
Wake up America  
Tomorrow  
Becomes a new day  
And everything you do  
Matters  
Yeah  
Everything you do  
Matters in some way
