

# Gone Angels

Mili

Look  
One by one  
The pages remind me you'll always be a villain  
For you, angels have fallen  
Now they're gone  
See? Now they're gone  
Forever gone  
From the hell that served as my one and only home  
Though it may hurt today  
Tomorrow I'll be heading my way

I tried, I tried  
What did we expect?  
My dearest friend  
Tell me when we shall make it end

So let me take your hand  
Like one of those madmen  
Tip tappity tappity tap  
Dance our last dance  
Sing  
Ta, ta-li-la, lu-li-la-tu  
La, tu-la-li, la-lu-li-lu  
Spinning vinyl opera

(Lascia ch'io pianga)  
Longing for this moment  
(Mia cruda sorte)  
Brewing all this hatred  
(E che sospiri)  
So I have a reason  
(La libertà)  
Reason to see you dead

Don't you worry  
I saved a spot for you in recycle bin  
Your neighbouring addresses point to the books you burned

Stop now  
One by one  
Your desires convince me you've always been a human  
For you, the shelves have fallen  
Now they're gone  
See? Now they're gone  
Forever gone  
From the stage that allowed us our one and only dreams  
What's more to say?  
Pain always catches up to those who chooses to stay  
Though it may hurt today  
Tomorrow I'll be heading my way
