Mili

You've found a piece of me  
Hidden behind the monitor beyond  
Saw the worth in me I could never see  
Polished my body  
Let all my bitterness melt into candy  
Poured me through your heat  
Mold me to the shape I dream to be

Come here darling  
Why don't you tell me what it is on your mind  
Worry not darling  
Point me to the sun  
Solar power makes my circuit run

Mirror mirror  
Just call my name  
You are my queen  
Commanding reflections of me  
Clearer clearer  
Convex concave  
Zoom in or out  
It's always a mystery  
Mirror mirror  
Focus my light  
May the rest of your life be  
Forever sunny  
Fear fear  
No more  
The light will be by your side  
Loving you silently

Tu-li, tu-li-ta-lu-lu-la  
Magnifying my love  
Tu-li-ta-lu-la  
Tu-li, tu-li-ta-lu-lu-la  
Take me by the hand into your dimension  
Tu-li-ta-lu-la  
Tu-li, tu-li-ta-lu-lu-la  
In your compound eyes

Come here darling  
Why don't you tell me what it is on your mind  
Worry not darling  
Point me to the sun  
Solar power turns my

I'll spread my skin  
Camouflaging you  
With refractions of me
