

# Rightfully

Mili

Chained onto me  
My adolescent dreams  
Pulling, dragged me deep  
All my body exposed  
Marked up by your shadows

Tighten up  
Numb your senses  
No fairness is needed for pigs  
Laughters above  
Playful smiles  
Die gets rolled

Bathe in sorrow  
My tomorrow is built upon your flesh  
Slay the last of your kind  
To reclaim what's rightfully mine

Each time we'll enter  
First time to make this  
Final dungeon 墓 墓 墓 (Munen no mirai no)  
I have a reason  
Don't part the rivers  
Surround them, off with their heads

Christen my motive  
First time to notice  
Final dungeon 墓 墓 墓 (murete mayou)  
I hide among you  
Facing my fire  
At night I'm dreaming, ahh  
I still dream of you

Will you be disappointed that I'm not who I used to be  
Will you hold me tightly

Chained onto me  
My adolescent dreams  
Pulling, dragged me deep  
All my body exposed  
Marked up by your shadows

Piece by piece the tables turn and turn again  
In this eternal game

Biscuits with clotted cream and milk tea  
Time to roll your d20  
Gods nor demons ready to admit defeat

Eat up  
Grind your teeth  
They're not that much smarter than us  
Laughters above  
Playful smiles  
Die gets rolled

Swallow your fate

Lubricate our blades with blood and tears  
And your piercing screams are music to celebrate

Infiltrate, penetrate  
Soon we'll have you destroyed  
Back to the old days  
Slay the last of your kind  
To reclaim what's rightfully mine

Each time we'll enter  
First time to make this  
Final dungeon 未来 (munen no mirai no)  
I have a reason  
Don't part the rivers  
Surround them, off with their heads

Christen my motive  
First time to notice  
Final dungeon 魔都 (murete mayou)  
I hide among you  
Facing my fire  
At night I'm dreaming 長い夢 (nagai yume no koto wa)
