

## Static

Mili

Lay down motionless  
Static runs between us  
I pushed you away  
But the warmth told me that you should stay

Mai lourr fue, mai pat yie  
Vix rhevae a  
Si mounui, si mounui

We're scared  
To lose another feeling shared  
Vix solla, vix solla  
Tui luna vy luna  
Quattrre voun la ciella  
Vive ue

You are the light  
Breaking through the ice, the soil  
Turn the snow into fields of edelweiss

Lay down motionless  
Static runs between us  
I pushed you away  
But the warmth told me that you should stay

So you stayed  
And so you stayed  
Wrapping me up in your blanket  
Interlace, interlace  
Our threads  
With the fate in our hands

Vix solla, vix solla  
Tui luna vy luna  
Tonitua muermuer  
Lyrrie bea io  
Krrystella e stella  
Lumena, ignisa  
Quattrre voun la ciella  
Vive ue

You are the light  
You fill me with dreams  
Replenish the hope  
Bring me to the hidden stars  
You are the thunder  
Let my voices be heard  
Ground me to the earth  
You taught me what it means to be strong

So, I'm not afraid anymore from this moment on  
Owned up to my mistakes  
(You cherished my right and wrong)  
Though you're no longer with me  
You've given me so much to live on  
Your static, it stays

Mai lourr fue, mai pat yie  
Vix rhevae a  
Si mounui, si mounui

No fear  
Only gratitude in tears  
Vix solla, vix solla  
Tui luna vy luna  
Quatrre voun la ciella  
Vive ue

You are the light  
Breaking through the ice, the soil  
Turn the snow into fields of edelweiss
