

# Whiteout

Mili

Will you lead me to the mountaintop?  
Let us bury our past  
Reset my memories  
Forget my sin  
And let me disappear into whiteout

Maybe then, we can reclaim our innocence  
Maybe then, we can erase our sentiments

The trees holding their ground against the wind  
The clouds spreading what used to be the rain  
The sun refusing to accept the humans  
So let us persuade the moon

It's been a long time since I counted  
Counted the years I have lived  
It's been a long time since I trusted  
Trusted unfamiliar faces

Now come with me to the mountaintop  
Let us bury our past  
Reset your memories  
Forget your sin  
And let us disappear into whiteout  
Come with me  
Come with me  
Inside the blizzard we dream

The sun refusing to accept the humans  
So let us become children of the moon
