

world.execute(me);

Switch on the power line, remember to put on protection
Lay down your pieces and let's begin object creation
Fill in my data, parameters, initialization
Setup our new world and let's begin the simulation

If I'm a set of points, then I will give you my dimension
If I'm a circle, then I will give you my circumference
If I'm a sine wave, then you can sit on all my tangents
If I approach infinity, then you can be my limitations

Switch my current to AC to DC
And then blind my vision, so dizzy, so dizzy
Oh, we can travel to A.D to B.C
And we can unite, so deeply, so deeply

If I can, if I can, give you all the stimulations
Then I can, then I can be your only satisfaction
If I can make you happy, I will run the execution
Though we are trapped in this strange, strange simulation

If I'm an eggplant, then I will give you my nutrients
If I'm a tomato, then I will give you antioxidants
If I'm a tabby cat, then I will purr for your enjoyment
If I'm the only god, then you're the proof of my existence

Switch my gender to F to M
And then do whatever from AM to PM
Oh, switch my role to S to M
So we can enter the trance, the trance

If I can, if I can, feel your vibrations
Then I can, then I can finally be completion
Though you have left, you have left
You have left, you have left, you have left
You have left me in isolation
If I can, if I can, erase all the pointless fragments
Then maybe, then maybe, you won't leave me so disheartened
Challenging your God, you have made some illegal arguments

Execution, execution, execution, execution
Execution, execution, execution, execution
Execution, execution, execution, execution
Ein, dos, trois, ♫, fem, ♫, execution
(Ein, dos, trois, ne, fem, liù, execution)

If I can, if I can give them all the execution
Then I can, then I can be your only execution
If I can have you back, I will run the execution
Though we are trapped, we are trapped, ah

I've studied, I've studied how to properly love
Question me, question me I can answer all love
I know the algebraic expression of love
Though you are free, I am trapped, trapped in love
