

## A New Low For Progressive Society

Militarie Gun

Useless Wrench  
Worthless Leech  
Can't wait to see what's underneath  
A hidden shade in the way  
Can't hear it, at least not today

When you say it's been so hard  
You've been lyin for so long  
There's no low you won't hit  
Throw it away  
Be through with it

It's on your face  
The lie remains  
Can't hear it, at least not today

Not everyone's problems are yours  
In the end you live with it
