

Scared Of Yourself

Milk Inc.

You reach for me
You reach for us
You reach for everything
But nothing ever comes my way

You reach for pain
You reach for fear
You reach for everything
But nothing ever comes your way

You reach for me
You reach for us
You reach for everything
But nothing ever comes my way

You reach for pain
You reach for fear
You reach for everything
But nothing ever comes your way

(Bridge x3)

You reach for me
You reach for us
You reach for me
You reach for us

(Chorus x2)

Think about the lies
That we told to each other
We never bothered
What a big surprise
That you're scared of yourself
And alone again

(Bridge x3)

You reach for me
You reach for us
You reach for me
You reach for us

You reach for me
You reach for us
You reach for everything
But nothing ever comes my way

You reach for pain
You reach for fear
You reach for everything
But nothing ever comes your way

(Bridge x3)

You reach for me
You reach for us
You reach for me
You reach for us

(Chorus x2)

Think about the lies
That we told to each other
We never bothered
What a big surprise
That you're scared of yourself
And alone again

(Bridge x3)

You reach for me
You reach for us
You reach for me
You reach for us
