

# Yes

Milk Inc.

(Verse)

Driving around,  
I just can't resound  
Set my own wheels turning  
One single day  
I'm just running away  
From a heart that's burning  
But I can't run forever

(Chorus)

Oh Yes! We're gonna fall in love and it feels so right  
Yes! We're gonna make love  
It's gonna be tonight  
I can just imagine  
Holding and teasing and loving and squeezing all night

(Verse)

I've made my mind  
This is burning my mind  
I'm so glad I waited  
Why didn't I try to figure why?  
Everything can be anticipated  
I can't wait to tell you...

(Chorus)

Oh Yes! We're gonna fall in love and it feels so right  
Yes! We're gonna make love  
It's gonna be tonight  
I can just imagine  
Holding and teasing and loving and squeezing all night

I can just imagine

Holding and teasing and loving and squeezing all night

(2x)

Oh Yes! We're gonna fall in love and it feels so right  
Yes! We're gonna make love  
It's gonna be tonight  
Oh Yes! We're gonna fall in love and it feels so right  
Yes! We're gonna make love  
It's gonna be tonight
