

# Fallen

Milky Chance

Just like the wave fits on the coast  
Just like a road knows where to go  
Well, have you ever seen the light  
Touch on the earth and make it right  
Just like the time knows how to fly  
How the days end the night  
Have you ever seen the light?

'Cause nothing can stop me, stop me from falling  
Nothing can stop the rain when it's pouring  
Shiver and I go, leave my body, keep my soul  
Shiver and I go, leave my body, keep my soul

While every shadow needs a light  
Someone's wrong when someone's right  
I wanna touch the other side  
And feel 'em both the black and white  
So, when I wake up from my dream  
Will I remember what I've seen  
And have you ever seen the sun on before the days begun?  
Before the days begun

'Cause nothing can stop me, stop me from falling  
Shiver and I go, leave my body, keep my soul  
Shiver and I go, leave my body, keep my soul

Nothing can stop me, stop me from falling  
Nothing can stop the rain when it's pouring

Shiver and I go, leave my body, keep my soul  
Shiver and I go, leave my body, keep my soul

(Soul, soul)
