Gramercy

Milo Greene

(Ha ha ha ha ha ha ha ha)

On the floor we watched, colors go by
Canvas changing colors, we breathe and we're high

In the soft of your eardrum
Down the shade, close out the sun
Till we're all

Time, time for me
Only gets worse when you leave

(2x)
This love, is not mine
You took it right from me
This love, this love
You took it right from me

In moonlights we're nothing at all
Bodies will rise, we're ready to fall

Time, time for me
Only gets worse when you leave

(2x)
This love, is not mine
You took it right from me
This love, this love
You took it right from me

Tel me you won't look at me like you did
And that you'll take the floor if I take the bed
I will never crawl through your window again
Forget me, forget me now

(2x)
This love, is not mine
You took it right from me
This love, this love
You took it right from me
