

# Wolves

Milo Greene

Waited for a time when I was following the signs  
But they all led me back to where I had begun  
I'm not scared to fight and I have done it once or twice  
But when the wolves are at your door you better run  
You better run  
Run

If you know what's good for you

Bad, I got it bad for you  
Love, I don't know what to do  
The wolves are out tonight and I am one of them, it's true  
Oh bad, I got it bad for you

Somewhere down the line when you have swallowed up your pride  
And you can tell me you were wrong and I was numb  
At least for a time let me hold you like you're mine  
And I will sing to you that song we used to hum  
We'd hum

Don't you know what's good for you

Bad, I got it bad for you  
Love, I don't know what to do  
The wolves are out tonight and I am one of them it's true  
Oh bad, I got it bad for you

Bad, I got it bad for you  
Love, I don't know what to do  
The wolves are out tonight and I am one of them it's true  
Oh bad, I got it bad for you
