

## pure scientific intelligence (quantum)

Milo

Do you enjoy playing so long?  
Phil, do you enjoy playing so long?  
I do, I really do  
Yeah, I do, I really do, because, uh

Vitreous, odd fellow reveller, nimbus cloud heckler  
Spirit chucking, warrant dodger, weeping what can't be said  
Pinpoint suffering as accumulated silences  
Esoteric, 'ello tarot, march of errant, darker parent feeling mellow  
Ignant, igneous, meaning heated rock, conchoidal fracture  
Dag nabit, abstracted again, Sonny Rollins mohawk-type African  
Desertion winks, night few, wet spark plug in pocket  
A pop lock it locket, my rage proud and it was good for a while  
(Good for a while) chromatic, Ernie enters the spirit realm  
Forestry is forward motion, a green horse captures the motion well  
God called me by your name again, but I shrugged it off  
Caliste apples is not macintosh, don't ask how your mans is knowing  
Shingen-ryu, hands is glowing, subtle knife stroke calligraphy  
Oh, this old thing, oh, this old thing (this old thing), this old thing  
This old thing

I got this other style I ain't flipped in a while  
It go, pure scientific intelligence (with one point)  
It go, pure scientific intelligence (with one point)  
Quantum niggerish (with one point, it is bad)

Peace lord, ELUCID, AKA "Him-Bad", AKA "Plant Dadcore"  
AKA "Out of Borough Ghetto Fellow Leave Him the Hell Alone"  
Nostrum Grocer (Nostrum)  
Let your momma know we got that bin tonight, clay for the low low  
Checking in, when civilization isn't really civil and sense is mostly uncommon  
I be a witness to myself, loose people, from think tank to thin kpiece  
Delinquent, delete, the extinction of genders now extinct  
In the presence of negative peace  
By the time you finish theorizing, we'll be dead in these streets  
My blackness is full operational, watch the birdy flip  
Drop, squat, sunken place, strapped with thirty bricks  
Bitch, I come when you send for me, no more water, but fire next time
