

Castaways

Milow

Stranded on a sunkissed desert island
Feeling like the world is out of reach
You're the only one who knows just where I'm hiding
So row row row your boat right back to me
And I got everything I ever needed
You got to see it to believe it
You're all I'm waiting for

Let's get lost you and I
On an ocean made of lights
Like castaways castaways
Drifting through the night
Let's get washed by the tide
Feel the motion side by side
Stay with me stay with me
Drifting through the night til the morning

Like castaways castaways
Drifting through the night til the morning

Me and my friends in the back of a black Mercedes
So why the hell am I still baby blue
But just coasting, wishing we were on the same beach
I'm gonna row row row my boat right back to you

Cause I got everything I ever needed
You got to see it to believe it
You're all I've been waiting for

Let's get lost you and I
On an ocean made of lights
Like castaways castaways
Drifting through the night
Let's get washed by the tide
Feel the motion side by side
Stay with me stay with me
Drifting through the night til the morning

Like castaways castaways
Drifting through the night

Oh oh I just hope they never save us
No need to be found, no need to be found
Oh oh I could stay right here for ages
As long as you're around, as long as you're around

Let's get lost you and I
On an ocean made of lights
Like castaways castaways
Drifting through the night
Let's get washed by the tide
Feel the motion side by side
Stay with me stay with me
Drifting through the night til the morning
