

## Good Thing

Milow

Too much of a good thing  
It never made sense to me  
Then I found the real thing  
It's better than I thought it could be  
Now every night I'm on your right  
We just can't overdo  
Too much of a good thing oh no  
I can never get enough of you

In bed on a Sunday  
Got a lot of work to do  
I'll get to it one day  
I wanna stay here with you  
The plans we make and always break  
To stay at home watching the rain  
Who needs the storm the sheets are warm  
I'm not gonna feel ashamed  
This much of a good thing oh yeah  
I'm never never gonna be the same

In younger days I'd run away  
From anyone I got close to  
But you came around and now I found  
That all I ever wanna do is

Too much of a good thing  
Cause you make sense to me  
And I found the best thing  
It's better than I thought it could be  
When times are tough you call my bluff  
I'll be there for you too  
Too much of a good thing oh no  
I could never no  
And if we're here a hundred years  
The only thing I know is true  
Too much of a good thing oh no  
Is never too much with you

I'll never get enough of you
