

Lost Boys

Milow

Remember how you told me that it's only
The good who die young?
You said you're never gonna fade out
There's a way out for the chosen ones

Out in the pines, chugging it back
Catching a skin, fall down on the tracks
Little gold for the rush
And you're already miles ahead of us

Sky's alive tonight
Now you're one of the Lost Boys
I'll be with you, I'll be with you
When you run with the Lost Boys
Stars will shine a light
And lead us out of the woods somehow
I'll be with you (I'll be with you), I'll be with you
'Cause you're one of the Lost Boys now

Remember how you told me all the good things
Come to those who don't wait?
Flying underneath the radar
In your dad's car, down the interstate

Into the wild, out over miles
Everyone shall be following blind
With the gold from the rush
And you're already miles ahead of us

The sky's alive tonight
Now you're one of the Lost Boys
I'll be with you, I'll be with you
When you run with the Lost Boys
Stars will shine a light
And lead us out of the woods somehow
I'll be with you (I'll be with you), I'll be with you
'Cause you're one of the Lost Boys now

Yeah, you're one of the Lost Boys now

Now you're one of the Lost Boys
I'll be with you (I'll be with you), I'll be with you

Yeah, like a star, you shine a light
And lead us out of the woods somehow
I'll be with you, I'll be with you
