

Loud & Clear

Milow

Waiting for the bullet
That'll start another chain reaction
You wanna close your eyes
All the lies are killing your high hopes
Cover up your ears
All you hear about is self-destruction
Rolling with the punches
Beat back against the ropes

Get up off the ground
Move yourself around
Listen to the sound
Turn the speakers up
Nothing's loud enough
Don't know how to stop

Hear me loud and clear
Get me out of here
Before we disappear
Hear me loud and clear

Hear me loud and clear

You're trying hard to find
Peace of mind but it's getting harder
Climbing up the walls
Is it me or is it getting warm
Running out of air
As you're sinking deeper underwater
What's the point of fighting
When you're swimming in a perfect storm

Get up off the ground
Move yourself around
Listen to the sound
Turn the speakers up
Nothing's loud enough
Don't know how to stop

Hear me loud and clear
Get me out of here
Before we disappear
Hear me loud and clear

Hear me loud and clear

Get up off the ground
Move yourself around
Listen to the sound
Turn the speakers up
Nothing's loud enough
Don't know how to stop

Hear me loud and clear
Get me out of here
Before we disappear
Hear me loud and clear

Hear me loud and clear

Hear me loud and clear
