Thinking Big

Milow

I suppose you might see just another fool in me
Thinkin'
That the limits of his love lie beyond the clouds above
But I'm thinkin'

How my mama said whatever you think
It's all in your head
Might as well think as big as you can

And since it's you who's on my mind
I'm thinkin' big now all the time
I'm connecting stars up in the sky
With the sparkle
In your eye

I've been trying to connect the dots from within this little box
Of my thinking
Many days and many nights, I've wandered through a lonely life
Thinkin'

This is no life at all when we're
Thinkin' so small
No life at all

But since it's you who's on my mind
I'm thinkin' big now all the time
I'm connecting stars up in the sky
With the sparkle in your eye
I'm thinkin'

Just you and me
Darling, in a little house at the sea
And how big that would be

Big Bang in my heart
Set alight by the tiniest spark

Since it's you who's on my mind
I'm thinkin' big now all the time
I'm connecting stars up in the sky
With the sparkle in your eye

If I could get you off my mind
But it's expanding all the time
Clusters in space
Are the smile
On your face
