

# UFO

Milow

Once upon a time I saw a UFO  
I ran off in the night so many years ago  
Gazing at the sky I sat under the glow  
Waiting for a sign I saw a UFO

It hovered in the dark and quickly flew away  
Just when I needed hope  
It came from outer space  
Could not believe my eyes  
They came to say hello  
Waiting for a sign I saw a UFO

All the lights shine for you and me  
I want so badly to believe

The world is full of magic  
Wild and unknown  
Technicolor live in stereo  
A message in a bottle  
Somebody's thrown  
Go and tell the world you're not alone

Now staring at the sky I feel older and it shows  
I never make the time for stars and UFOs  
The years are rolling by  
I don't know where they go  
The magic starts to fade  
The more you think you know

All the lights shine for you and me  
I want so badly to believe

The world is full of magic  
Wild and unknown  
Technicolor live in stereo  
A message in a bottle  
Somebody's thrown  
Go and tell the world you're not alone

Calling out to you  
Calling out to me  
Calling out to something  
For the whole world to believe

Calling out to you  
Calling out to me  
Calling out to something  
For the whole world to believe

Calling out to you  
Calling out to me  
Calling out to something  
For the whole world to believe

Calling out to you  
Calling out to me
