

# Whatever It Takes

Milow

(Whatever it takes)

Just when I thought love was impossible  
And I was about to get philosophical  
There she was with a coffee to go  
Perfectly framed by a beautiful Basquiat  
Endorphins up to the maximum  
When she said "let's call a taxi and go"

It's no secret  
Love will mess you up  
If you don't mean it  
Better believe it

Baby, I want you  
Let there be no mistake  
We're gonna find out  
Whatever it takes  
Baby, I want to  
You got me wide awake  
We're gonna find out  
Whatever it takes

In the back of the cab feeling affectional  
Doing my best to be intellectual  
Lover of art, teach me, I'm dying to know  
Let's ride all night, let's make a thing of it  
Stop off in Vegas and put a ring on it  
Shut off the meter whenever you're ready to go

It's no secret  
Love will mess you up  
And if you don't mean it  
Better believe it

Baby, I want you  
Let there be no mistake  
We're gonna find out  
Whatever it takes  
Baby, I want to  
You got me wide awake  
We're gonna find out  
Whatever it takes

Just when I thought love was impossible  
And I was about to get philosophical  
Oh, whatever it takes  
(Whatever it takes)

There she was framed by a Basquiat  
Endorphins up to the maximum  
Oh, whatever it takes  
(Whatever it takes)

Just when I thought  
Just when I thought love was impossible  
Just when I thought love was impossible

Baby  
Let there be no mistake  
We're gonna find out  
Whatever it takes  
(Whatever)  
Baby, I want to  
You got me wide awake  
We're gonna find out  
Whatever it takes  
(Whatever)  
Whatever it takes  
(Whatever)  
(Whatever)  
Whatever it takes  
(Whatever)  
(Whatever)  
(Whatever)
