

While You're Asleep

Milow

I don't have an answer, babe
I never understood
Another day of dreadful news
People ain't no good
Even if I'd tell you to be strong
Many other times I have been wrong
It would be a lie to lead you on
You don't know but I've been here before
Picking every lock on every door
Looking for the lighthouse on the shore

A night like tonight
When you're scared cause I'm leaving
Life is unfair and the world is uneven
Even I get scared sometimes I'm on my knees
But the sky will open up while you're asleep

Anyone can change the world
I don't know if that's true
Look at me I've tried so hard
There's only so much you can do
You don't know but I've been here before
Picking every lock on every door
Looking for the lighthouse on the shore

A night like tonight
When you're scared cause I'm leaving
Life is unfair and the world is uneven
Even I get scared sometimes I'm on my knees
But the sky will open up while you're asleep
While you're asleep
While you're asleep

A night like tonight
When you're scared cause I'm leaving
Life is unfair and the world is uneven
Even I get scared sometimes I'm on my knees
But the sky will open up while you're asleep

If you get scared sometimes
Life is unfair sometimes

If you get scared sometimes
Life is unfair sometimes

If you get scared sometimes
Life is unfair sometimes

If you get scared sometimes
Life is unfair sometimes

If you get scared sometimes
Life is unfair sometimes...

While you're asleep
