

Dumb Love

Mimi Webb

Tattooed on your skin
With a safety pin
You and I, we got so high
Kiss like heroin
Where do I begin?

We had that young love
We had that dumb love
The kind that cuts you up inside
My blood was your love
We had that you jump and I'm jumping
Crazy kind of something
That dumb love
We had that young love

(Dumb love, young love)

Running through my veins
You were that sweet sweet pain
Oh I've tried but can't deny
I've never been the same

We had that young love
We had that dumb love
The kind that cuts you up inside
My blood was your love
We had that you jump and I'm jumping
Crazy kind of something
That dumb love
We had that young love

We had the young love
We had the dumb love
We had the young love
We had the dumb love
We had the young love
We had the dumb love
You jump and I'm jumping
Crazy kind of something

Tattooed on your skin
With a safety pin
You and I, we got so high
Kiss like heroin

We had that young love
We had that dumb love
The kind that cuts you up inside
My blood was your love
We had that you jump and I'm jumping
Crazy kind of something
That dumb love
We had that young love
We had that dumb love
We had that young love
We had that dumb love
We had that young love
