

# Love Language

Mimi Webb

I've been burned, I've been broke  
Twenty-something – that's just what it is  
(Ah ah ah, ah ah ah)  
Been naïve, been a joke  
Been a serial monogamist  
(Ah ah ah)

Now I'm just tryna tell ya (ooh)  
That was then (ooh)  
This is now (ooh)  
Forever promises just let me down

If I'm being so candid  
Hold me and don't plan it  
Just fall hard for the night  
Yeah, that's my love language

No need for romantics  
We don't need tomorrow's damage  
Just fall hard for the night  
Talking my love language

You're talking my (ooh ooh)  
You're talking my (ooh ooh)  
Just fall hard for the night  
Talking my love language

Guess I'll hold on for dear life  
And even when it wasn't right  
Got real good at making bad mistakes

Thinking someone could kiss me  
Just walk in and fix me  
And now love looks like Saturday  
Staying up late

That was then (ooh)  
This is now (ooh)  
Forever promises just let me down

If I'm being so candid  
Hold me and don't plan it  
Just fall hard for the night  
Yeah, that's my love language

No need for romantics  
We don't need tomorrow's damage  
Just fall hard for the night  
Talking my love language

You're talking my (ooh ooh)  
You're talking my (ooh ooh)  
Just fall hard for the night  
Talking my love language

You're talking my (ooh ooh)  
You're talking my (ooh ooh)

Talking my love language  
My love language

If you pull me in close  
Take off all of your clothes  
If you wanna go talk  
Then you better make sure it's uncommittal  
Uncommittal

Is it really that wrong  
Waking up and I'm gone  
Isn't leading you on  
Told you all that I want  
It's plain and simple  
Plain and simple

If I'm being so candid  
Hold me and don't plan it  
Just fall hard for the night  
Yeah, that's my love language

No need for romantics  
We don't need tomorrow's damage  
Just fall hard for the night  
Talking my love language

You're talking my (ooh ooh)  
You're talking my (ooh ooh)  
Just fall hard for the night  
Talking my love language

You're talking my (ooh ooh)  
You're talking my (ooh ooh)  
Talking my love language  
My love language
