

Mistake

Mimi Webb

No lies in our universe
No love 'cause you know it hurts
Hold tight now it's all a blur (Oh)

Act out with me if you dare
Blacked out, we could take it there
You're bad I don't really care (Oh)

All the lights they blind reality
And all I see is your arms surrounding me
And all the lines I crossed you just got to say
Let's make a mistake
Before our time is up
Let's make a mistake
Before our time is up
Let's pick up the pace
Before our time is up
It's never too late (never too late)
It's never too late
It's never too late

Let's make a mistake
Let's make a mistake
Let's make a mistake

Your voice I hear echoing
Red flags hit me off my feet
God knows where it's going to lead (Ah)

All the lights they blind reality
And all I see is your arms surrounding me
And all the lines I crossed you just got to say
Let's make a mistake
Before our time is up
Let's make a mistake
Before our time is up
Let's pick up the pace
Before our time is up
It's never too late (never too late)
It's never too late
It's never too late

Let's make a mistake
Oh-oh
Let's make a mistake
Oh-oh
Let's make a mistake
Oh-oh
Oh-oh
Let's make a mistake
Oh-oh
It's never too late
It's never too late
Let's make a mistake
