Reasons

Mimi Webb

You're just like me only happy
When you get to the leave the party
We never say goodbye we just go

We could stay here til the cops come
Watch the days pass talk to no one
Cuz everybody else just makes me feel alone

They make feel alone
Like I was never there
Oh, I hated everyone til you I swear

We're just people made of broken pieces
I got secrets, you got secrets in your eyes
Why does sad love always taste the sweetest
We got reasons, we got reasons, you and I

You're just like me far from normal
Too impulsive anti social
We bring out the baddest parts us

We could drive on straight to Tuscon
I'm the Bonnie you're Clyde love
Everybody else is choking in the dust

They're choking in the dust
Like we were never there
Oh, I hated everyone til you I swear

We're just people made of broken pieces
I got secrets, you got secrets in your eyes
Why does sad love always taste the sweetest
We got reasons, we got reasons, you and I

I got secrets, you got secrets in your eyes
We got reasons, we got reasons, you and I
