

Remind You

Mimi Webb

You said wherever you are
You'll pick me up in your car
And drive till morning light

'Cause you'd been thinking a lot
The fears you kept in the dark
And the signs, they shine so bright

And now I'm thinking, oh, what a waste of time
Did you forget that you said you're always mine?
So

You gotta know what you got baby, before it's all gone

Let me remind you
That I'm not just another love
To spend one night beside you
If you're leaving like I'm not enough
Don't you dare forget it
I give you all, give you everything
So let me just remind you
That I got something worth remembering

Ooh, so let me remind you
Ooh, so let me remind you

Fill me with doubts
'Cause you don't mess around
Or at least, yeah, we tried to

I'm still hoping for us
That you'll hold on to love
'Cause we got something too good

You gotta know what you got baby, before it's all gone

So let me remind you
That I'm not just another love
To spend one night beside you
If you're leaving like I'm not enough
Don't you dare forget it
I give you all, give you everything
So let me just remind you
That I got something worth remembering

Ooh, so let me remind you
Ooh, so let me remind you

Ooh, so let me remind you
