

I Know

Mina

I have nothing left to say
There is nothing more to add
I have nothing left to cry
There's no reason to be sad
'Cause I know

I have nothing left to lose
There is nothing more to gain
Nothing's running through my mind
No thought's running through my brain
'Cause I know

Oh! If I just had a chance to hold you
If I just had a chance to hold you
But I know
If I just had a chance to talk to you
If I just had a chance to talk to you
But I know

I would write a book
If I could
But I'll never finish
I would write a song
But as I play
All the notes diminish
I have nothing left to say
There is nothing more to add
I have nothing left to cry
There's no reason to be sad
'Cause I know

Oh! If I just had a chance to hold you
If I just had a chance to hold you
But I know
If I just had a chance to talk to you
If I just had a chance to talk to you
But I know

I would write a book
If I could
But I'll never finish
I would write a song
But as I play
All the notes diminish

Oh! If I just had a chance to hold you
If I just had a chance to hold you
But I know
If I just had a chance to talk to you
If I just had a chance to talk to you
But I know

I would write a book
If I could
But I'll never finish
I would write a song
But as I play

All the notes diminish
