

Lost and Alone

mind.in.a.box

I see your face in the crowd,
As we break free from the past.
I feel your presence in the night,
With a fire that will always last.

You are not the only one,
Who has felt so alone.
There is someone beside you,
With a life that is our own.

We walk the streets as one.
We collect the sound.
With every step we take,
We shake the ground.

You were lost and alone.
I was lost alone too.
Together, we are the living.
Together, we are the few.

You are the sunlight in the rain.
You are the beacon that guides me.
We rule over our domain.
We break the strongest chains.
To every ambition attain.
To the edge of the world we reign.

I was lost alone too.
I am lost without you.

If they try to deceive us,
We will see through their lies.
And if they beat us down,
Together, we will rise.

When no one else hears,
I will listen and heed.
When there is danger,
I will stand and lead.

You were lost and alone.
I was lost alone too.
We are in this together now.
Eternity in view.

I am with you now and always.
I am the calm and the storm.
We ignite the hottest blaze.
We drive the greatest waves.
Together in so many ways.
Together for all days.

I was lost alone too.
I am lost without you.

You were lost and alone.
I was lost alone too.

We are lost and together.
I am lost without you.

You were lost and alone.
I was lost alone too.
We are in this together.
With eternity in view.

I was lost alone too.
I am lost without you.
I am lost...
