

can't help myself

Mind's Eye

I can see you in my dreams at night
In my dreams at night
Seeing you it makes me feel alright
Makes me feel alright
I can't help myself

Will you ever love me
Or at least pretend you do
Baby push and and shove me around
Will you ever love me
As much as I seem to love you
Please don't push and shove me around

I can feel you in my blood
In my blood
I can never get enough
Get enough
I'm fine
But I can't help myself

Will you ever love me
Or at least pretend you do
Baby push and and shove me around
Will you ever love me
As much as I seem to love you
Please don't push and shove me around
Will you ever love me
Oh honey please tell me now
I think that I need you around
