

Take what you want
Cause everything I got is yours
If you need me give me a call
I'll come running

No time for talk my love
I want your heart I want your blood
Don't tell me how to love
I'd go through hell to get heaven

I know it's wrong (don't blame it on me)
To come undone (don't blame it on me)
I know it's wrong (don't blame it on me)
Don't come undone
Don't come undone

I can't turn off
All these feelings that I just don't want
And all those times
I lost myself I couldn't look in your eyes

But you know
No time for talk my love
We can't run from all the things we've done
Don't tell me how to love
If it looks like heaven you should run

I know it's wrong (don't blame it on me)
To come undone (don't blame it on me)
I know it's wrong (don't blame it on me)
It can't undone (don't blame it on me)
Don't come undone
Don't come undone
