

Cause you got me so oh oh oh confused  
Somebody free my mind  
Done wasting time

Looks like danger to my eyes  
You're just here tryna push my limit  
Bed of roses, paradise  
Yeah I know what you do

You're telling me you're needing me, no magic when we touch  
Everything you think I wanna hear, don't make me blush  
And even though you're good with words, I'm never satisfied  
Will I ever be your special one?

Cause you got me so oh oh oh confused  
Somebody free my mind  
Done wasting time  
Cause your name has been so oh oh overused  
This is no good for me, I better rewind

Cause you got me so oh oh oh confused  
Somebody free my mind  
Done wasting time  
Cause your name has been so oh oh overused  
This is no good for me, I better rewind

Talk about you with all my friends  
Like as if you mean nothing to me  
I can try to play pretend  
But I'll care in the end

You're telling me you're needing me, no magic when we touch  
Everything you think I wanna hear, don't make me blush  
And even though you're good with words, I'm never satisfied  
Will I ever be your special one?

Cause you got me so oh oh oh confused  
Somebody free my mind  
Done wasting time  
Cause your name has been so oh oh overused  
This is no good for me, I better rewind

I'm so confused  
I'm so over you  
I'm so confused  
Boy you got me so

Cause you got me so oh oh oh confused  
Somebody free my mind  
Done wasting time  
Cause your name has been so oh oh overused  
This is no good for me, I better rewind
