

Could Be Something

Minelli

Could be something
I know we could be something tonight
Could be something
I know we could be (could be)

They say pretty girls have cracked phone screens
And I ain't gonna lie
I'm always dropping it probably most weeks
Every night, like every time
I go out with all my girls, 'til the morning
And we go 'til four
Well, at least we know that we ain't boring
Mmm mmm

I know I can be a bit difficult
I'm just playin' (I'm just playin'), Oh yeah
Before me make the conversation physical
I'm just sayin'
(I'm just sayin')

Let's talk about our emotions
Feelings in the dark are
Drifting just out of focus
You're all that I want
I know we caught in the moment
I hope that it's worth it
But I know we could be something
I know we could be something tonight

Could be something
I know we could be something tonight
Could be something
I know we could be something tonight
Could be something
I know we could be something tonight
Could be something
I know we could be (could be)

Don't freak out, I ain't calling it love yet
But I think I could
'Cuz the look in your eyes got me fallin'
For your touch, can't get enough

I know I can be a bit difficult
I'm just playin' (I'm just playin'), Oh yeah
Before me make the conversation physical
I'm just sayin'
(I'm just sayin')

Let's talk about our emotions
Feelings in the dark are
Drifting just out of focus
You're all that I want
I know we caught in the moment
I hope that it's worth it
But I know we could be something
I know we could be something tonight

Could be something
I know we could be something tonight
Could be something
I know we could be something tonight
Could be something
I know we could be something tonight
Could be something
I know we could be (could be)

Saturday like a movie
Loving the way you move me
Nothing ain't gonna stop me (Nothing ain't gonna stop me)
Saturday like a movie
Baby we're making memories
Nothing ain't gonna stop me (Nothing ain't gonna stop me)

Could be something
I know we could be something tonight
Could be something
I know we could be (could be)
