

# Kill the Lights

Minelli

Wanna wake up in your ocean  
Wanna get lost in your mind, mm  
I'm just waiting for a moment  
Wanna front seat for the ride

Siluettes ain't getting in my way  
Won't you come a little closer  
I need you to fill the empty space  
Come on over

All I wanna do is kill the lights  
I don't wanna have to say goodbye  
Ain't nobody here but you and I  
Tell me baby  
All I wanna do is kill the lights  
What's it gonna take to roll the dice  
All we ever have is here tonight  
Tell me are you ever gonna kill the lights

Kill the lights  
Ki-ki-kill the lights  
Are you gonna kill the lights  
Ki-ki-kill the lights, baby  
Kill the lights  
Ki-ki-kill the lights  
Are you gonna kill the lights  
Ki-ki-kill the lights  
Kill the lights

I'm gonna crawl under your skin, yeah  
I'm falling to the night  
Can you feel a deep connection  
Like we're loosing track of time

All I wanna do is kill the lights  
I don't wanna have to say goodbye  
Ain't nobody here but you and I  
Tell me baby  
All I wanna do is kill the lights  
What's it gonna take to roll the dice  
All we ever have is here tonight  
Tell me are you ever gonna kill the lights

Kill the lights  
Ki-ki-kill the lights  
Are you gonna kill the lights  
Ki-ki-kill the lights  
All I wanna do is kill the lights  
Ki-ki-kill the lights  
Are you gonna kill the lights  
Ki-ki-kill the lights, baby

All I wanna do is kill the lights  
All I wanna do is kill the lights

Siluettes ain't getting in my bed  
I need you to fill the empty space

Tell me are you ever gonna kill the lights  
Ki-ki-kill the lights  
Are you gonna kill the lights  
Ki-ki-kill the lights, baby  
Kill the lights  
Ki-ki-kill the lights  
Are you gonna kill the lights  
Ki-ki-  
Tell me are you ever gonna kill the lights
