

Maracatu

Minelli

Can I say something
You looking different don't know why
I've been thinking about your love
And I see without me you're drying out
So I'm in here now you can call my name
And I'll be right back to brighten up your days
Now what you need?
I know what you need
Now what you need?

One kiss on my lips that is what you miss
Now you're bout to take it, take it [?]
One kiss on my lips that is what you miss
Now you're bout to take it, take it [?]

I'ma ask you something
Are you dreaming about you and I
I've been thinking about your love
And I see without me you're drying out

One kiss on my lips that is what you miss
Now you're bout to take it, take it [?]
One kiss on my lips that is what you miss
Now you're bout to take it, take it [?]
